### USAGLAŠENI ZAHTEVI ZA PLASMAN GRAĐEVINSKIH PROIZVODA – PREDLOG NOVE UREDBE EU COM 2022 144 FINAL

**Rezime:** Postojeću Uredbu o građevinskim proizvodima treba revidirati jer više nije u skladu sa širim prioritetima politike, posebno u vezi sa evropskim zelenim dogovorom. Takođe je neophodno stvoriti normativni okvir koji će prepoznati digitalne tehnologije, definisati performanse održivosti građevinskih proizvoda i razrešiti problem pravne nadležnosti u procesu izrade harmonizovanih standarda za građevinske proizvode. Pored opisa izmena uredbe u radu su jasno definisane koje su nadležnosti predlogom revizije prebačene na Evropsku komisiju kao i koje su nove obaveze za proizvođače.

**Ključne reči:** građevinski proizvodi, COM 2022 144, CPR 305/2011

### PROPOSAL FOR LAYING DOWN HARMONISED CONDITIONS FOR THE MARKETING OF CONSTRUCTION PRODUCTS - COM(2022)144

**Abstract:** The Construction Products Regulation needs to be revised because it no longer fit to meet broader policy priorities, particularly on the European Green Deal. It is also necessary to speed up the use of digital technologies in the ecosystem. The new CPR aims to: Ensure a smooth functioning of the Single Market and free movement of construction products; Address the sustainability performances of construction products; Enable the construction ecosystem's contribution to meeting climate and sustainability goals and embrace the digital transformation and Ensure that harmonised standards contribute to the competitiveness of the ecosystem and reduce market barriers. The proposal for revision of Regulation CPR 305/2011 is briefly discussed in this paper. The scope of application of the revised Regulation has been changed. It is clearly indicated which responsibilities have been transferred to the European Commission, as well as what are the new obligations for manufacturers.

**Key words:** construction product , COM 2022 144, CPR 305/2011
